

To: Boothbay Planning Board  
From: Mark Eyerman  
Subject: Updated Draft of Section 7  
Date: March 7, 2019

Attached is an updated draft of Section 7. This draft includes the following:

1. The edits we reviewed at the last workshop including the change to the maximum height requirement in the BVF District
2. The timber harvesting provisions discussed a couple of meetings ago and reviewed at the last workshop. These are included in the draft to document where we are. I am preparing an alternative Option 1 approach for discussion at the upcoming workshop.
3. The Botanical Garden provisions as a place holder since we will discuss these again at the upcoming workshop.
4. I have put discussion of day care facilities and eldercare facilities on the agenda as a result of comments/questions in the review of definitions. If we revise the handling of those uses we will need to incorporate those into the Table of Land Uses as well as in the definitions.
