

To: Boothbay Planning Board  
From: Mark Eyerman  
Subject: Revised Section 5  
Date: July 2, 2019

Attached is a revised draft of Section 5 – Permit and Development Review Requirements. Here is an overview of the revisions:

1. I added requirements for subdivision plans to show farmland and freshwater wetlands.
2. I changed the various submission requirements with respect to the number of copies. For minor development review and site plan review I provided for 4 copies of full size plans and 10 copies of reduced size plans and other material. For subdivisions I include one full size mylar for the final plans.
3. I went through and tried to clean up the numbering – I think I got everything but I'm never sure so other eyes are always welcome.
4. I made minor edits to clean up things – MRSA, etc. – but again if you catch anything mark up the page and give it to me and I'll clean it up.

Hopefully this completes this section for now.
